about the

randstad
workmonitor.

about the randstad workmonitor.

- The Randstad Workmonitor was launched in the Netherlands in 2003, then in Germany, and covers 34 countries around the world. The study encompasses Europe, Asia Pacific and the Americas.

The Randstad Workmonitor is published four times a year, making both local and global trends in mobility visible over time.

- The Workmonitor's Mobility Index, which tracks employee confidence and captures the likelihood of an employee changing jobs within the next 6 months, provides a comprehensive understanding of sentiments and trends in the job market.

Besides mobility, the survey addresses employee satisfaction and personal motivation as well as a rotating set of themed questions.

about the randstad workmonitor.

- The study is conducted online among employees aged 18-65, working a minimum of 24 hours a week in a paid job (not self-employed). Minimum sample size is 400 interviews per country. The Survey Sampling International (SSI) panel is used for sampling purposes.
- The second survey of 2018 was conducted from 23 April until 14 May 2018 in the following countries:
