produce all Site Specific Risk Assessments / Method Statements / Work Package Plans.	Whilst the company is aware of its responsibility within Health and Safety, it will always work with the client to produce all Site Specific Risk Assessments / Method Statements / Work Package Plans.				

Na		Identifiable Henerd	Deg	ree Of	Risk	Corrective Action Required	Degree Of Residual Risk		
No	Activity/Task	Identifiable Hazard	L	С	R	Corrective Action Required	L	С	R
1.	Supplying staff to	Client does not carry out	3	5	15	Formally make client aware of responsibilities.	2	5	10
	clients	safety responsibilities towards contract staff				Inform staff of what to expect from the client in terms of safety briefing etc.			
						Check via random site audit that clients are carrying out responsibilities.			
		Lack of First Aid on Site	3	5	15	Provide First aid on site through trained COSS or arrange suitable cover with client	1	3	3
		Lack of welfare on site	3	1	3	Ensure first aid is provided by the client	1	1	1
2.	Site Working - Crossing track.	Staff being struck by passing rail vehicle.	2	5	10	Ensure safe route to site is identified, use recognised walkways if possible. Safe system of work to be implemented. PTS training. Due Care & Attention. COSS briefing.	1	5	5
3.	Site Working – Tripping.	Injury to staff.	2	2	4	Due care & attention. Highlight trip areas before accessing site. PTS training. COSS briefing.	1	2	2
4.	Site Working – Slipping.	Injury to staff.	4	2	8	Due care and attention. PTS training. COSS briefing.		2	4
5.	Site Working – Red Zone working	Staff being struck by passing rail vehicle.	4	5	20	Ensure that a Safe System of Work (as defined in the Rule Book) is implemented and adhered to. Briefing of staff.		5	5
6.	Working in possession	Incorrect application of possession arrangements causing staff to be struck by passing rail vehicle.	3	5	15	Ensure protection staff are competent. Work to existing procedures and Rule Book. Ensure staff are adequately briefed on the safe limits of the possession.	1	5	5
7.	Work adjacent to electrified lines	Burns or electrocution due to contact of person, tools, equipment or materials with OLE or 3 rd rail	3	5	15	Working method to ensure safe distances (as stated in the Rule Book) can be maintained at all times. Method statement briefing. COSS briefing.		5	5
8.	Work on signalling or telecoms equipment fixed to platforms or buildings, or commissioning of new or connection to existing services.	Disruption of existing signalling system and performance.	3	5	15	Work method/ design to be accepted by Network Rail. Testing and commissioning to be carried out to Testing Hand Book and Signal works testing group standards.	1	5	5
9.	Work adjacent to signal equipment	Signal sighting obstruction.	4	5	20	Assessment of operations prior to commencement of work. Method Statement to address signal sighting issues.	1	5	5

Risk Ranking Matrix

	Risk Ranking		Likelihood												
	RISK RAHKING	5 - Likely	4 - Probable	3 - Possible	2 - Remote	1 – Improbable									
е	5 - Catastrophic	25	20	15	10	5									
ence	4 – Major	20	16	12	8	4									
nb	3 – Serious	15	12	9	6	3									
Conse	2 – Minor	10	8	6	4	2									
0	1 - Incident	5	4	3	2	1									

Critical risks (16-25) – unacceptable, risk must be reduced, Significant risks (8-15) – tolerable, if possible reduce risk to as low as reasonably practicable, Minor risks (1-6) broadly acceptable, if possible reduce risk to as low as reasonably practicable.

This Generic Risk Assessment is intended as a guide only and does replace the need for site specific risks to be assessed.
